Memorandum

To: Tom S. Martin, P.E.
Consultant Design Engineer

From:  Donald P. Dusek, P.E.
Traffic Engineer

Date: April 10, 2002

Subject: Pavement Marking Quantities

Please inform all consultants currently working on MDT highway projects there has been a change in our practice of the type of pavement marking material being used. As a result, effective with the May 2002 letting (February 2002 ready), a single application of **Paint** will be specified for the interim quantity. Interim Quantities will be bid as follows:

Yellow Paint	Liters
White Paint	Liters
Words & Symbols-Yellow Paint	Liters
Words & Symbols-White Paint	Liters

For the final quantity a single application of **Epoxy** will be specified. Final Quantities will be bid as follows:

Yellow Epoxy	
100 mm Solid	Kilometer
100 mm Broken-Rural	Kilometer
100 mm Broken-Urban	Kilometer
White Epoxy	
100 mm Solid	Kilometer
100 mm Broken-Rural	Kilometer
100 mm Broken-Urban	Kilometer
Words & Symbols-Yellow Epoxy	Liters
Words & Symbols-White Epoxy	Liters
Curb Marking-Yellow Paint	Liters

For projects with new concrete pavement, **Paint** will be specified for both interim and final quantities.
